

MITHUN V

Bengaluru, India – 561203 | 973800957 | vmithun760@gmail.com

OBJECTIVE

Results-driven second-year Computer Science Engineering student with a CGPA of 8.0, seeking an internship to apply programming, problem-solving, and software development skills in real-world applications. Passionate about building scalable solutions and continuously improving technical expertise.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++
Web Technologies: HTML, CSS, JavaScript
Core Concepts: Data Structures and Algorithms
Tools: Git, VS Code

EDUCATION

B.Tech in Computer Science Engineering – Jain University, Bangalore (CGPA: 8.0/10)
Narayana PU College, Karnataka (88%)

PROJECTS

Crop Management System

Developed a web-based application to digitize and optimize agricultural crop management processes. Designed features for crop tracking, irrigation scheduling, and yield estimation to assist farmers in decision-making. Implemented frontend using HTML, CSS, and JavaScript, with backend logic using Python/Java. Focused on improving efficiency, reducing manual tracking, and enhancing productivity through data-driven insights.

Hackathon Finalist Project

Qualified for the final round in a competitive hackathon by developing an innovative prototype within strict deadlines. Collaborated with a team to design and implement a functional solution, demonstrating strong problem-solving, teamwork, and rapid development skills.

INTERESTS

Web Development, Competitive Coding, Problem Solving, Automation Scripts, Emerging Technologies
